2012/2013**

Lecturers Comments and Mark Sheet  
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:  
Kuid: k1118969

*Exercises: Week One*

Good analysis and implementation  
Good solutions, with appropriate detail but one or two minor problems  
Good structure for PHP/ HTML  
Didn't quite get the last one as you printed direct values in it..

*Exercises: Week Two*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good attempt at the large HTML form

*Exercises: Week Three*

Good analysis and implementation  
Good solutions with appropriate detail  
Lacking rigorous testing  
As is indicated - problem in the form element names in ex3; Otherwise good solutions

*Exercises: Week Four*

Good analysis and implementation  
Good solutions, with appropriate detail but one or two minor problems  
Good structure for PHP/ HTML  
Your newspaper code looks a little wrong - it could certainly be coded more efficiently, but I'm probably being picky

*Exercises: Week Five*

Good analysis and implementation  
Good solutions, with appropriate detail but one or two minor problems  
Reasonable function definitions  
Your daysoftheweek function needs a bit of work for it to function correctly

*Exercises: Week Six*

Good analysis and implementation  
Good solutions, with appropriate detail but one or two minor problems  
Good structure for PHP/ HTML  
Good - you got the harder insert program working

*Exercises: Week Seven*

Good analysis and implementation  
Good solutions, with appropriate detail but one or two minor problems  
Good structure for PHP/ HTML

*Exercises: Week Eight*

Good analysis and implementation  
Some flaws/mistakes in the implementations/solutions  
Good structure for PHP/ HTML  
You've got one or two problems in the show all responses ones, but the login set look good

*Exercises: Week Nine*

Good analysis and implementation  
Some flaws/mistakes in the implementations/solutions  
Good structure for PHP/ HTML  
You must watch the case of Class names (ie Student not student ex3) ...

*Exercises: Week Ten*

No Smarty work?

*General Comments*

Shame about wk 9 /10 - the rest shows a great deal of effort

Overall Mark:

68 %

**2012/2013**

Lecturers Comments and Mark Sheet  
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:  
Kuid: k1147250

*Exercises: Week One*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Two*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good effort at the larger HTML web form

*Exercises: Week Three*

Reasonably well implemented  
Good use of PHP and appropriate techniques  
Reasonable mix of HTML and PHP  
Comm and grage examples could have been much shorter! There are much more efficient ways of writing these!

*Exercises: Week Four*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good - but the newspaper one could have been more efficient (again!)

*Exercises: Week Five*

Good analysis and implementation  
Good solutions with appropriate detail  
Good use / construction of functions here  
Nice explanations of your thinking here

*Exercises: Week Six*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Excellent - got the insert one working (lots of people had problems with this)

*Exercises: Week Seven*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good this week

*Exercises: Week Eight*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good but did you not have a go at the show all details part?

*Exercises: Week Nine*

Excellent analysis and implementation  
Excellent solutions with appropriate detail  
Good structure for PHP/ HTML  
Very good here - mangaed to get it working in the end it seems

*Exercises: Week Ten*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Slight problem at the end!

*General Comments*

Lots of very good work here - well done!

Overall Mark:

87 %

Lecturers Comments and Mark Sheet  
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:  
Kuid: k1005262

*Exercises: Week One*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Two*

Good analysis and implementation  
Good solutions, with appropriate detail but one or two minor problems  
Good structure for PHP/ HTML  
If you hadn't left all of these until the very end, you could have got some more feedback on these items!

*Exercises: Week Three*

Poor implementations with a bit more depth / detail required  
Some evidence of the appropriate techniques

Your commision upload is all over the place, with bizarre variable names and missing quotes - yuk!

*Exercises: Week Four*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Five*

Very little here for this week - a few of the function parts at the end

*Exercises: Week Six*

Very little here for this week

*Exercises: Week Seven*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Eight*

Got some of the login response exercises, but the second half is missing

*Exercises: Week Nine*

Some of the class material

*Exercises: Week Ten*

*General Comments*

Well - it's a shame - it looks to me as if you left lots of this till the end. There are a few weeks where you did some work, but the large number of missing exercises isn't good.

Overall Mark:

44 %

2012/2013**

Lecturers Comments and Mark Sheet  
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:  
Kuid: k1006269

*Exercises: Week One*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Two*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
No attempt at the more complex HTML form exercise?

*Exercises: Week Three*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Four*

Reasonably well implemented  
Good solutions, with appropriate detail but one or two minor problems

A few issues here, but you're pretty close!

*Exercises: Week Five*

Reasonably well implemented  
Good solutions, with appropriate detail but one or two minor problems

Function demos missing; Also: didn't fix the daysofweek function

*Exercises: Week Six*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Well done on getting the insert program working as many found this tricky

*Exercises: Week Seven*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good this week!

*Exercises: Week Eight*

Good analysis and implementation  
Good solutions, with appropriate detail but one or two minor problems  
Good structure for PHP/ HTML  
Got it working - well done on wiring this up - looks like it took a bit of effort to get it working

*Exercises: Week Nine*

Missing

*Exercises: Week Ten*

Missing

*General Comments*

It's a shame you left a lot of this until the last minute, as I'm sure you could have had a good go at the wk 9 / 10 material. What's here is good - a few holes and issues, but overall good

Overall Mark:

2012/2013**

Lecturers Comments and Mark Sheet  
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:  
Kuid: k1135279

*Exercises: Week One*

Good analysis and implementation  
Good solutions, with appropriate detail but one or two minor problems  
Good structure for PHP/ HTML  
As was noted - don't print literal values!

*Exercises: Week Two*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Three*

Reasonable analysis and implementation  
Good solutions with a few problems - you should have tested properly  
Good structure for PHP/ HTML  
Problem here - the button can't work as both must have the same name for the test to work; good to see you correcting the code / listening to the suggestions!

*Exercises: Week Four*

Good analysis and implementation  
Good solutions, with appropriate detail but one or two minor problems  
Good structure for PHP/ HTML  
Your newspaper solution is rather long winded - there is a much easier way to do this!

*Exercises: Week Five*

Good analysis and implementation  
Good solutions, with appropriate detail but one or two minor problems  
Good structure for PHP/ HTML  
Your daysofweek function doesn't look right ..testing?

*Exercises: Week Six*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Well done for getting the insert working - it can be tricky

*Exercises: Week Seven*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good this week

*Exercises: Week Eight*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Lots of good work here - bit missing the crucial show all details page (the hard bit!?)

*Exercises: Week Nine*

Good analysis and implementation  
Good solutions with appropriate detail

What a shame that this stops before the DB bit ...

*Exercises: Week Ten*

... and that the SMARTY bit is missing

*General Comments*

It was all going very well till week 9! What happened? Lots of excellent work here, although it's a shame you missed the hard bits in wk 8/ 9/ 10!

Overall Mark:

*Exercises: Week One*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Two*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good effort at the larger web form here

*Exercises: Week Three*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Grade calc at the end

*Exercises: Week Four*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Five*

Good analysis and implementation  
Good solutions with appropriate detail  
  
Function at the end

*Exercises: Week Six*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good work getting the SQL insert working here

*Exercises: Week Seven*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Got this working eventually!

*Exercises: Week Eight*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good - but you didn't do the final show all details part?

*Exercises: Week Nine*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Very good here

*Exercises: Week Ten*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Very good here

*General Comments*

Lots of very good work here - well done!

2012/2013**

Lecturers Comments and Mark Sheet  
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:  
Kuid: k1136435

*Exercises: Week One*

Good analysis and implementation  
Some evidence of the appropriate techniques  
Missing parts  
The initial exercise don't show the PHP! Only the output!

*Exercises: Week Two*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good attempt at the larger HTML form example

*Exercises: Week Three*

Good analysis and implementation  
Some flaws/mistakes in the implementations/solutions  
Lacking rigourous testing  
Your button can't work as they must have the same name - also your code is a bit inefficient!

*Exercises: Week Four*

Good analysis and implementation  
Some flaws/mistakes in the implementations/solutions  
Lacking rigourous testing  
(at end)

*Exercises: Week Five*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Missing the extra function bit?

*Exercises: Week Six*

Good analysis and implementation  
Some flaws/mistakes in the implementations/solutions

If you hadn't left it to the last minute, you might have got some help with ex5!

*Exercises: Week Seven*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good this week

*Exercises: Week Eight*

Good analysis and implementation  
Some flaws/mistakes in the implementations/solutions  
Lacking rigourous testing  
Some parts of this are here - but not the harder second half

*Exercises: Week Nine*

Good analysis and implementation  
Some flaws/mistakes in the implementations/solutions

Lots of code here (and wk 10) without proof of it running!

*Exercises: Week Ten*

Good analysis and implementation  
Some flaws/mistakes in the implementations/solutions

*General Comments*

What happened between weeks 8-11? Made life harder because you had a lot of work to catch up on during the last couple of weeks - the problems you encountered during 8=10 could have been sorted out given more time!

Overall Mark:

60 %

Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:  
Kuid: k1112676

*Exercises: Week One*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Two*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good attempt at the larger HTML form example

*Exercises: Week Three*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
A few little odd quirks here and there - the odd misplaced " and your code could be more efficient - however a good week overall

*Exercises: Week Four*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Newspaper could be more efficiently written, but what you've got works...

*Exercises: Week Five*

Good analysis and implementation  
Good solutions with appropriate detail  
Elegant function definitions  
No function examples?

*Exercises: Week Six*

Good analysis and implementation  
Excellent solutions covering depth and detail required  
Good structure for PHP/ HTML  
Good here - you got the insert working which can be tricky

*Exercises: Week Seven*

Good analysis and implementation  
Good solutions with appropriate detail  
Elegant function definitions  
Good

*Exercises: Week Eight*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Lots of good work here - but you didn't get the course response page done ...?

*Exercises: Week Nine*

Good analysis and implementation  
Excellent solutions covering depth and detail required  
Excellent structure for PHP/HTML  
Very good effort at the harder parts of this - getting the DB parts to work is excellent

*Exercises: Week Ten*

Good analysis and implementation  
Excellent solutions covering depth and detail required  
  
Very good effort at the Smarty material

*General Comments*

You made life harder on yourself by leaving lots of work until after week 10 - this has also affected your opportunities to get feedback on some odd bits of coding which is a shame. Overall though - VG! You tackled the harder parts of wks 8 / 9 /10 well

Overall Mark:

83 %

**Business Undergraduate Modular Scheme**

**2012/2013**

Lecturers Comments and Mark Sheet  
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:

Kuid: k1134656

*Exercises: Week One*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Two*

One or two problem areas in the implementations  
Good solutions, with appropriate detail but one or two minor problems  
Reasonable mix of HTML and PHP  
You have some weird calculations in ex4 (misplaced " symbols) so I'm not sure how the calculation worked! Good attempt at the complex web form though

*Exercises: Week Three*

One or two problem areas in the implementations  
Good solutions, with appropriate detail but one or two minor problems  
Reasonable mix of HTML and PHP  
Again - you've got excess " characters in the calculation (ex 4)

*Exercises: Week Four*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
All good this week

*Exercises: Week Five*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
No function examples?

*Exercises: Week Six*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good - but couldn't get the last one working (shouldn't have left it till the last week!)

*Exercises: Week Seven*

Good analysis and implementation  
Good solutions with appropriate detail  
Good use of the functions

*Exercises: Week Eight*

Bits are here but lots missing

*Exercises: Week Nine*

Bits of week nine are here

*Exercises: Week Ten*

Bits of week 10

*General Comments*

No explanation and no tags - makes it harder to mark - you also left most of the uploading till the end which meant that you missed out on feedback on your style and help with the coding which is a shame. You've clearly ran out of time for wks 8-10 which you could have had a better run at if you had started earlier!

Overall Mark:

*Exercises: Week One*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Two*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good effort at the larger HTML form example

*Exercises: Week Three*

Good analysis and implementation  
Reasonable solutions with appropriate detail  
Good structure for PHP/ HTML  
Commision calculator could be more efficiently written; as could the grade calculator - they seem to work though!

*Exercises: Week Four*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Very goodeffort this week!

*Exercises: Week Five*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
And again - very good functions

*Exercises: Week Six*

Well analysed and implemented  
Excellent solutions covering depth and detail required  
Excellent structure for PHP/HTML  
You got the rather tricky insert program working with the form, which tripped up a lot of people - VG

*Exercises: Week Seven*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Eight*

Well analysed and implemented  
Excellent solutions covering depth and detail required  
Excellent structure for PHP/HTML  
You solved the hard excercises - VG!

*Exercises: Week Nine*

Well analysed and implemented  
Excellent solutions covering depth and detail required  
Excellent structure for PHP/HTML

*Exercises: Week Ten*

Missing!

*General Comments*

What a shame that you didn't have a go at Week Tens material - the effort you've put into the other week material has been excellent

Overall Mark:

Lecturers Comments and Mark Sheet  
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:  
Kuid: k1121506

*Exercises: Week One*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Two*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good attempt at the complex HTML form

*Exercises: Week Three*

Reasonably well implemented  
Some flaws/mistakes in the implementations/solutions  
Good structure for PHP/ HTML  
You must use the same name for the form buttons if you want to test for their values in a single if statement (ex1-3); lots of reating code in ex5 (not a good sign!)

*Exercises: Week Four*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Solution for newspaper page missing?

*Exercises: Week Five*

Good analysis and implementation  
Good solutions with appropriate detail  
Good functions  
Nice to see your exploration of the function code ...

*Exercises: Week Six*

Good analysis and implementation  
Some flaws/mistakes in the implementations/solutions  
Good structure for PHP/ HTML  
You must have a problem in the insert response page (it seems to be inserting a blank line) - if only you hadn't left uploading it to the last minute....!

*Exercises: Week Seven*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
All good this week

*Exercises: Week Eight*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Half of 8 is here - but not the harder half!

*Exercises: Week Nine*

Good analysis and implementation  
Good solutions with appropriate detail  
Missing parts  
Not much here - although it shows the employee and person code

*Exercises: Week Ten*

Good analysis and implementation

... but didn't do the harder bits of 8 9 or 10..

*General Comments*

What a shame that you left all your uploading until the end - you missed the chance to get feedback and help on your work. It looks like you ran out of time for the tough parts of weeks 8 /9/ 10 which is a shame as the earlier weeks show promise

*Exercises: Week Ten*

*General Comments*

In almost all the screenshots, it is clear that you are not bringing up the code via a web server, so you cannot possibly have achieved the results obtained in the browser window (this was pointed out to you around week 4 /5 so you don't have an excuse). All I can conclude is that you rewrote the code or 'fixed' the screenshots. As such I have given you some marks on the code you have constructed, but never evaluated properly

Overall Mark:

15 %

Lecturers Comments and Mark Sheet  
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:  
Kuid: k1165185

*Exercises: Week One*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Two*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good attempt at the bigger HTML example

*Exercises: Week Three*

Good analysis and implementation  
Good solutions, with appropriate detail but one or two minor problems  
Good structure for PHP/ HTML  
Your grade calculator has a few issues with maths!

*Exercises: Week Four*

Good analysis and implementation  
Good solutions, with appropriate detail but one or two minor problems  
Good structure for PHP/ HTML

*Exercises: Week Five*

Good analysis and implementation  
Good solutions, with appropriate detail but one or two minor problems  
Reasonable function definitions  
Your daysofweek function has got a mistake in it

*Exercises: Week Six*

Good analysis and implementation  
Good solutions, with appropriate detail but one or two minor problems  
Good structure for PHP/ HTML  
Good - got the harder insert program working

*Exercises: Week Seven*

Good analysis and implementation  
Good solutions, with appropriate detail but one or two minor problems  
Good structure for PHP/ HTML

*Exercises: Week Eight*

Good analysis and implementation  
Excellent solutions covering depth and detail required  
Excellent structure for PHP/HTML  
Very good this week - managed to get the hard parts working well

*Exercises: Week Nine*

Good analysis and implementation  
Good solutions, with appropriate detail but one or two minor problems  
Good structure for PHP/ HTML  
Good - but no attempt at the DB parts?

*Exercises: Week Ten*

Good analysis and implementation  
Good solutions, with appropriate detail but one or two minor problems  
Good structure for PHP/ HTML  
Again good - but could have attempted the extra bits

*General Comments*

It's a shame that you left loads of this till towards the end - you've got errors that could've been caught and corrected if you had uploaded material earlier - I also think you would have been capable of doing the extra bits in week 9 / 10.  
Overall: very good - but could have been excellent

Overall Mark:

75 %

*Exercises: Week One*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Two*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good attempt at the big form exercise

*Exercises: Week Three*

*Exercises: Week Four*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Some of the code could be more elegant, but overall good!

*Exercises: Week Five*

Good analysis and implementation  
Good use of PHP and appropriate techniques  
Missing parts  
Some missing bits and pieces this week

*Exercises: Week Six*

Good analysis and implementation  
Good use of PHP and appropriate techniques  
Missing parts  
Didn't do the insert bit (the harder part!)

*Exercises: Week Seven*

*Exercises: Week Eight*

Some parts here, but lots missing

*Exercises: Week Nine*

Some parts here, but lots missing

*Exercises: Week Ten*

Some parts here, but lots missing

*General Comments*

A couple of good weeks, but the second half is weaker, with a lot of the code supplied the material we covered in the labs.

Overall Mark:

55 %

*Exercises: Week One*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Two*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Nice tax calc example

*Exercises: Week Three*

Good analysis and implementation  
Good solutions, with appropriate detail but one or two minor problems  
Good structure for PHP/ HTML  
Lots of good work here, but some of the code is a bit inefficient - you got lots of repeating blocks (in for example the grade calc) - this is always a hint that you could code it better

*Exercises: Week Four*

Good analysis and implementation  
Excellent solutions covering depth and detail required  
Good structure for PHP/ HTML  
V Nice newspaper solution

*Exercises: Week Five*

Well analysed and implemented  
Excellent solutions covering depth and detail required  
Excellent structure for PHP/HTML  
Very good work here - nice solutions and you've explained your thinking in the function examples

*Exercises: Week Six*

Well analysed and implemented  
Excellent solutions covering depth and detail required  
Excellent structure for PHP/HTML  
You've got the harder insert statement working - well done

*Exercises: Week Seven*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Eight*

Good analysis and implementation  
Good solutions with one or two problems  
Good structure for PHP/ HTML  
It's a shame you couldn't get the last one working - very close though!

*Exercises: Week Nine*

Good analysis and implementation  
Good solutions with one or two problems  
Good structure for PHP/ HTML  
No deptDB class?

*Exercises: Week Ten*

Good analysis and implementation  
Good solutions with one or two problems  
Good structure for PHP/ HTML  
Good here - but didn't finish off the extra bits

*General Comments*

Lots of very good work here - the odd hiccup and missing part, but overall a very good effort

Overall Mark:

77 %

2012/2013**

Lecturers Comments and Mark Sheet  
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:  
Kuid: k1002904

*Exercises: Week One*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Two*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good attempt at the larger HTML form and response page

*Exercises: Week Three*

Good analysis and implementation  
Reasonably good / logical structures / solutions  
Good structure for PHP/ HTML  
Some good work here - your code could be more efficient (when you see large chunks of repeating code, its always a signal that you could rewrite more efficiently)

*Exercises: Week Four*

Good analysis and implementation  
Reasonably good / logical structures / solutions  
Missing parts  
Table example is a bit wonky - missing the newspaper example?

*Exercises: Week Five*

Good analysis and implementation  
Good solutions with appropriate detail  
Reasonable function definitions  
Some missing..

*Exercises: Week Six*

Missing?

*Exercises: Week Seven*

Good analysis and implementation  
Reasonably good / logical structures / solutions  
Good structure for PHP/ HTML  
Most of this is here - the odd incorrect line I think

*Exercises: Week Eight*

Good analysis and implementation  
Reasonably good / logical structures / solutions  
Good structure for PHP/ HTML  
Parts of this are good, but some bits missing

*Exercises: Week Nine*

Good analysis and implementation  
Reasonably good / logical structures / solutions  
Good structure for PHP/ HTML  
Parts of this are good, but some bits missing - the DB parts

*Exercises: Week Ten*

Good analysis and implementation  
Reasonably good / logical structures / solutions  
Good structure for PHP/ HTML  
Parts of this are good, but some bits missing - the harder parts

*General Comments*

There are lots of good bits and pieces here - but a few holes. If you had a more even level of work (ie don't leave lots to the end) you may have found it easier.

Overall Mark:

54 %

Lecturers Comments and Mark Sheet  
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:  
Kuid: k1125621

*Exercises: Week One*

Good analysis and implementation  
Good use of PHP and appropriate techniques  
Good structure for PHP/ HTML  
One or two odd results here, but overall nicely presented good work

*Exercises: Week Two*

Good analysis and implementation  
Good use of PHP and appropriate techniques  
Good structure for PHP/ HTML  
Good attempt at the complex HTML form

*Exercises: Week Three*

Good analysis and implementation  
Some flaws/mistakes in the implementations/solutions  
Good structure for PHP/ HTML  
The cancel button can't work correctly as both buttons must have the same name - more testing required! Nice attempt at the harder grade calc program

*Exercises: Week Four*

Good analysis and implementation  
Good use of PHP and appropriate techniques  
Good structure for PHP/ HTML  
Newspaper example more complex than it needs to be!

*Exercises: Week Five*

Good analysis and implementation  
Good use of PHP and appropriate techniques  
Reasonable function definitions  
All good this week - although you were supposed to demonstrate 3 functions

*Exercises: Week Six*

Good analysis and implementation  
Good use of PHP and appropriate techniques  
Missing parts  
Insert response page not here ...?

*Exercises: Week Seven*

Good analysis and implementation  
Good use of PHP and appropriate techniques  
Good structure for PHP/ HTML  
A few more artifacts would have helped to show the work here

*Exercises: Week Eight*

Good analysis and implementation  
Good use of PHP and appropriate techniques  
Missing parts  
Some bits missing

*Exercises: Week Nine*

Good analysis and implementation  
Good use of PHP and appropriate techniques  
Good structure for PHP/ HTML  
Good here

*Exercises: Week Ten*

Missing

*General Comments*

Lots of good work here, with a few holes in a few places.

Overall Mark:

63 %

2012/2013**

Lecturers Comments and Mark Sheet  
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:  
Kuid: k1125046

*Exercises: Week One*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Two*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good attempt at the complex HTML form

*Exercises: Week Three*

Good analysis and implementation  
Good solutions with appropriate detail  
Lacking rigorous testing  
Should have caught the cancel button (or fixed it!) - didn't have a go at the harder part?

*Exercises: Week Four*

One or two problem areas in the implementations  
Some evidence of the appropriate techniques  
Parts not working, but included as if they did work  
Your Newspaper code is rather odd - this could be much shorter! Really requires a few output screen grabs to prove that they work (I think there may be a few problems)

*Exercises: Week Five*

Good analysis and implementation  
Good solutions with appropriate detail  
Elegant function definitions  
Didn't have a go at fixing the tomorrow function

*Exercises: Week Six*

One or two problem areas in the implementations  
Reasonably good / logical structures / solutions  
Lacking rigorous testing  
Its clear that ex 5 can't work - the SQL on line 15 has inster instead of insert - shouldn't have left it to the last minute!

*Exercises: Week Seven*

Reasonably well implemented  
Reasonably good / logical structures / solutions  
Good structure for PHP/ HTML  
You needed to upload more evidence her to prove it was working correctly

*Exercises: Week Eight*

Reasonably well implemented  
Reasonably good / logical structures / solutions  
Good structure for PHP/ HTML  
Missing course response page (ie the hard bit!), completed the login/response part

*Exercises: Week Nine*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Partially completed

*Exercises: Week Ten*

*General Comments*

A more even approach (rather than two bursts of activity) would have helped your learning here. What's a bit frustrating here is that there are lots of good examples here - if you had used a more even approach, you would have done very well

Overall Mark:

58 %

Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:  
Kuid: k1106685

*Exercises: Week One*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Two*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good here

*Exercises: Week Three*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
To get the form displaying properly you needed a more complex if statement or the use of a switch; there is a much more efficient way of writing the commission program using only one variable; you didn't quite crack the final harder part of the grade calculator

*Exercises: Week Four*

Good analysis and implementation  
Good solutions with appropriate detail  
Missing parts  
No modules in a table, but rest look good

*Exercises: Week Five*

Good analysis and implementation  
Some flaws/mistakes in the implementations/solutions  
Reasonable function definitions  
Ex1 is a for loop rather than a while; Your problems with \$weeknames isn't that it is an incorrect function name! You've got a complex solution to ex7, but it works! No function examples?

*Exercises: Week Six*

One or two problem areas in the implementations  
Some flaws/mistakes in the implementations/solutions  
Lacking rigorous testing  
There's no way that lab6ex3 is working as it says 'intert' rather than insert! p/ as a closing tag? Really?!

*Exercises: Week Seven*

Reasonably well implemented  
Some flaws/mistakes in the implementations/solutions  
Poor mix of HTML and PHP  
It should be clear that there is an extra </div> tag in ex4/5 just by looking at it! The final version looks correct

*Exercises: Week Eight*

One or two problem areas in the implementations  
Some evidence of the appropriate techniques  
Missing parts  
Nearly there with some of these - a few output screens are required to prove that these are working. No login part?

*Exercises: Week Nine*

*Exercises: Week Ten*

*General Comments*

First half seemed better than the second half - which seems uneven, with parts missing

Overall Mark:

55 %

## Business Undergraduate Modular Scheme

2012/2013

Lecturers Comments and Mark Sheet  
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:  
Kuid: k0904551

### *Exercises: Week One*

Well analysed and implemented  
Uses terminology and techniques appropriately and in a valid style  
Good structure for PHP/ HTML

### *Exercises: Week Two*

One or two problem areas in the implementations  
Uses terminology and techniques appropriately and in a valid style  
Missing parts  
You've got an issue in lab 3 ex 3 - in the form both buttons must have the same name for the if statement to trigger correctly

### *Exercises: Week Three*

Reasonably well implemented  
Some evidence of the appropriate techniques  
Reasonable mix of HTML and PHP  
One or two missing - sales and commission

### *Exercises: Week Four*

One or two problem areas in the implementations  
Good use of PHP and appropriate techniques  
Missing parts  
Lab4ex3 isn't a table! There are also some issues in your coding for the ex 4 form which doesn't display the drop down box properly (it's a variable name issue)

### *Exercises: Week Five*

Reasonably well implemented  
Some evidence of the appropriate techniques  
Missing parts  
The associative array ones seem to be missing - although you've got the output of one (students and foods). Some function parts not here

### *Exercises: Week Six*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good demonstrations of the DB / php - a bit of proof of the working of the insert statement would help in the last one

### *Exercises: Week Seven*

One or two problem areas in the implementations  
Good use of PHP and appropriate techniques  
Reasonable function definitions  
One or two of the function calls are in the wrong place on some of the screens, but the ones towards the end look good

### *Exercises: Week Eight*

Good analysis and implementation  
Good solutions with appropriate detail  
  
Solutions up to the login part, but the rest aren't here

### *Exercises: Week Nine*

### *Exercises: Week Ten*

### *General Comments*

You should try to maintain a more regular working pattern, which is what is required in a mixed subject like this - you will find it much easier! Some bits and pieces missing along the way, with holes at the end

Overall Mark:

50 %

Good use of PHP and appropriate techniques  
Good structure for PHP/ HTML

*Exercises: Week Two*

Good analysis and implementation  
Good use of PHP and appropriate techniques  
Good structure for PHP/ HTML  
Nice attempt at the larger HTML form example

*Exercises: Week Three*

One or two problem areas in the implementations  
Good use of PHP and appropriate techniques  
Reasonable mix of HTML and PHP  
You've got some ineffecient code and one or two errors here

*Exercises: Week Four*

Good analysis and implementation  
Good use of PHP and appropriate techniques  
Good structure for PHP/ HTML

*Exercises: Week Five*

Good analysis and implementation  
Good use of PHP and appropriate techniques  
Elegant function definitions

*Exercises: Week Six*

Good analysis and implementation  
Good use of PHP and appropriate techniques  
Good structure for PHP/ HTML  
Good here - getting this working is tough but you manged it

*Exercises: Week Seven*

*Exercises: Week Eight*

Good analysis and implementation  
Reasonably good / logical structures / solutions  
Missing parts  
Partially completed

*Exercises: Week Nine*

*Exercises: Week Ten*

*General Comments*

It's a shame that your online activity was very minimal during weeks 1-6 - you would have found it easier to try and engage with the material more consistently. The very hurried upload of work at the end without tags or explanations is a shame, as you would have done better with a more even approach

Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:  
Kuid: k1136960

*Exercises: Week One*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Two*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Three*

Reasonably well implemented  
Uses terminology and techniques appropriately and in a valid style  
Reasonable mix of HTML and PHP  
Some of your code is rather inefficient (lots of repeating lines like in ex5/6)

*Exercises: Week Four*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Better code this week

*Exercises: Week Five*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
How many versions of ex5/6 did you upload in the end!! There are so many I've lost count!

*Exercises: Week Six*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Finally got ex5 working by the looks of it

*Exercises: Week Seven*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Eight*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Nine*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good effort here, but the destructor function needs t save everything, not just the empno!

*Exercises: Week Ten*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good attempt at lots of the smarty MVC material

*General Comments*

It's a shame that you left all your uploading to very late in the course, as it would have improved your style to look at (and be looked at) whilst the labs were progressing. You have however done very well, fixing and catching up

Overall Mark:

77 %

**Business Undergraduate Modular Scheme  
2012/2013**

Lecturers Comments and Mark Sheet  
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:  
Kuid: k1159824

*Exercises: Week One*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

*Exercises: Week Two*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good attempt at the more complex form example

*Exercises: Week Three*

One or two problem areas in the implementations  
Very flawed or missing implementations  
Missing parts  
Your code in ex3 is too complex and could be more efficient; missing some of the exercises

*Exercises: Week Four*

Some flaws/mistakes in the implementations/solutions  
Missing parts  
Mislabelling? You've got a while loop instead of a for loop.

*Exercises: Week Five*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Better here, but missing some of the harder parts

*Exercises: Week Six*

Poor implementations with a bit more depth / detail required  
Some evidence of the appropriate techniques  
Missing parts  
More required here

*Exercises: Week Seven*

Seems to be missing

*Exercises: Week Eight*

A few screen shots, but not enough to convince that any of this is working correctly - lots missing

*Exercises: Week Nine*

*Exercises: Week Ten*

*General Comments*

You haven't added any tags or explanations of the work, which makes it very hard to mark. It looks like lots of this was left to the last minute, when it became too hard to catch up, code and debug the work

Overall Mark:

45 %

## Business Undergraduate Modular Scheme

2012/2013

Lecturers Comments and Mark Sheet  
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:  
Kuid: k1135654

### *Exercises: Week One*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

### *Exercises: Week Two*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Missing tax calculator source! Good effort on the large HTML form

### *Exercises: Week Three*

Good analysis and implementation  
Good solutions, with appropriate detail but one or two minor problems  
Repetitive code - should use functions / loops / arrays to improve the design  
Missing cancel button form source; commision calculator could be much simpler; when you have lots of repeating code (like in the grade exercise) its always a hint that there must be a better way. Final part missing

### *Exercises: Week Four*

Good analysis and implementation  
Good solutions, with appropriate detail but one or two minor problems  
Reasonable mix of HTML and PHP  
Your newspaper response page could be coded in a better way (use the newspaper index to print the name and cost from the array) - much simpler and less lines!

### *Exercises: Week Five*

Good analysis and implementation  
Good solutions, with appropriate detail but one or two minor problems  
Good structure for PHP/ HTML  
Since when is the average of 2,4,2 4? Somewhat perplexing! No code, but I suspect you divided by 2 rather than 3!

### *Exercises: Week Six*

One or two problem areas in the implementations  
Uses terminology and techniques appropriately and in a valid style  
Lacking rigourous testing  
If you hadn't left lots of the code to the last minute, you would have given yourself more time to debug - eg your success response page doesn't have variable names that match your form

### *Exercises: Week Seven*

Good analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML

### *Exercises: Week Eight*

Reasonable analysis and implementation  
Good solutions with appropriate detail  
Good structure for PHP/ HTML  
Good up to a point - missing login repsonse pages

### *Exercises: Week Nine*

Good analysis and implementation

Completed the person and student class parts, but empdb and deptdb are missing

### *Exercises: Week Ten*

Initial parts of the smarty are here

### *General Comments*

Good up to Week 6/7.. Then lots of gaps!

Overall Mark:

62 %
