2011/2012**

Lecturers Comments and Mark Sheet
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:

Kuid: K0959000

Exercises: Week Two

Good analysis and implementation
Good solutions with appropriate detail
Good structure for PHP/ HTML

Exercises: Week Three

Good analysis and implementation
Good use of PHP and appropriate techniques
Some missing examples (the later ones)
Missing if required to demo the Cancel button

Exercises: Week Four

Good solutions for 1-3
A few of the later exercises missing
Missing parts

Exercises: Week Six

One or two problem areas in the implementations
You've got the wrong type of single quote on line 13, which is why you've had problems
Otherwise pretty close

Exercises: Week Seven

Good analysis and implementation
Good solutions with appropriate detail
Good structure for PHP/ HTML
All good this week

Exercises: Week Eight

Good analysis and implementation
Missing final part
What's here is good

Exercises: Week Nine

Good here, but for some reason there must be something wrong with the session code - it should delete session so that the back button doesn't work on a deleted session
Most of what's here is good

Exercises: Week Ten

Person and Student implementation very good

General Comments

Overall Mark:

55 %

**Business Undergraduate Modular Scheme
2011/2012**

Lecturers Comments and Mark Sheet
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:

Kuid: K1008729

Exercises: Week Two

Good analysis and implementation
Good solutions with appropriate detail
Good structure for PHP/ HTML

Exercises: Week Three

Good analysis and implementation
Good solutions, with appropriate detail but one or two minor problems
Missing parts
Ex 2 - use if else statements, clearly a syntax issue in ex 3! Missing the final exercise

Exercises: Week Four

One or two problem areas in the implementations - but some good work here
Some evidence of the appropriate techniques
Reasonable mix of HTML and PHP
Ex 4 could have used the array and two print statements instead of the if's. Ex 5 has syntax error - missing quotes around the HTML elements in the print

Exercises: Week Six

One or two problem areas in the implementations
Some evidence of the appropriate techniques
Good structure for PHP/ HTML
Your problem is line 5 - your university DB isn't called reponses. This effects your final exercises

Exercises: Week Seven

All good solutions for this week

Exercises: Week Eight

Good analysis and implementation
Some flaws/mistakes in the implementations/solutions
Missing parts
Missing responses page (which is probably the hardest bit!)

Exercises: Week Nine

It's a shame that you couldn't get this working, as the code is very nearly there.
Most of the session code is correct.
Database problems

Exercises: Week Ten

Person class and object is good
Student material is missing

General Comments

Overall Mark:

55 %

**Business Undergraduate Modular Scheme
2011/2012**

Lecturers Comments and Mark Sheet
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:

Kuid: K0903343

Exercises: Week Two

Good analysis and implementation
Good solutions with appropriate detail
Good structure for PHP/ HTML

Exercises: Week Three

Good analysis and implementation
Good solutions with appropriate detail
Missing parts
Missing some exercises here - the later ones involving the cancel button and the calc grade exercise

Exercises: Week Four

One or two problem areas in the implementations
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML
Rather odd line in the loop in "task 1" <bre+\$i+9 ? Task three - just print the value of \$i!
Missing final exercise

Exercises: Week Six

Good analysis and implementation
Good use of PHP and appropriate techniques
Missing parts
You haven't included some code here - the insert responses file with the insert SQL statement is missing

Exercises: Week Seven

Good analysis and implementation
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML
All good for this week

Exercises: Week Eight

Well analysed and implemented
Technically correct but lack some critical detail in parts
Good structure for PHP/ HTML
Again - upload connection/record code seems missing - good ex7 though

Exercises: Week Nine

All good this week

Exercises: Week Ten

Good classes and objects here

General Comments

Some missing parts in wk 6 and 8 - otherwise good

Overall Mark:

55 %

**Business Undergraduate Modular Scheme
2011/2012**

Lecturers Comments and Mark Sheet
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:

Kuid: K1001097

Exercises: Week Two

Good analysis and implementation
Good solutions with appropriate detail
Good structure for PHP/ HTML

Exercises: Week Three

One or two problem areas in the implementations
Good use of PHP and appropriate techniques
Missing parts
Ex 4 was supposed to do a calc + some of the later exercises missing

Exercises: Week Four

Good analysis and implementation
Good use of PHP and appropriate techniques
Avoid embedded hard coded literals (I.e. names, titles, modules)
Ex 2 has got a syntax error in the array and some odd syntax. Ex 4 should use the module array lower down in the code

Exercises: Week Six

Missing

Exercises: Week Seven

One or two problem areas in the implementations
Reasonably good / logical structures / solutions
Problem in tour function definitions - they should be in a different file to promote reuse (

Exercises: Week Eight

Reasonably well implemented
Some evidence of the appropriate techniques
Missing parts
Missing later exercises - but early parts are fine

Exercises: Week Nine

Good analysis and implementation
Some parts missing

What's here is good

Exercises: Week Ten

Good analysis and implementation
Good solutions with appropriate detail

Good this week

General Comments

Overall Mark:

58 %

**Business Undergraduate Modular Scheme
2011/2012**

Lecturers Comments and Mark Sheet
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:

Kuid: K0900397

Exercises: Week Two

Well analysed and implemented
Good solutions with appropriate detail
Good structure for PHP/ HTML

Exercises: Week Three

One or two problem areas in the implementations
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML
Should really use an if else in ex2/ex4. Button code looks OK - must be a minor problem. A few logic problems with your if statements which is why you got a bit stuck!

Exercises: Week Four

One or two problem areas in the implementations
Some evidence of the appropriate techniques
Missing parts
Ex2 - you seem to declare \$module twice

Exercises: Week Six

One or two problem areas in the implementations
Good solutions, with appropriate detail but one or two minor problems
Missing parts
Very close - its probably the quotes in your print statement that are causing the problems (ex4)

Exercises: Week Seven

Good analysis and implementation - what is here is good
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML
A good week here!

Exercises: Week Eight

Good analysis and implementation - what is here is good
Some flaws/mistakes in the implementations/solutions
Missing parts
You've really struggled with getting the database connectivity parts working (here and wk 6)

Exercises: Week Nine

One or two problem areas in the implementations
Uses terminology and techniques appropriately and in a valid style
Good structure for PHP/ HTML - just a few minor errors
Again - it's the database connectivity stuff that got you stuck. All the session code is good, but fails due to the DB issues.

Exercises: Week Ten

Good analysis and implementation
Excellent solutions covering depth and detail required

Good this week!

General Comments

Lots of good work here - its just the PHP/MySQL connectivity which caused you problems.

Overall Mark:

63 %

**Business Undergraduate Modular Scheme
2011/2012**

Lecturers Comments and Mark Sheet
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:

Kuid: K1009858

Exercises: Week Two

Well analysed and implemented
Good solutions with appropriate detail
Good structure for PHP/ HTML

Exercises: Week Three

Well analysed and implemented
Good solutions with appropriate detail
Good structure for PHP/ HTML
Its generally good design to pass something more meaningful than 1-4 across - but
your solution is fine. Nice if statement structure in grade/exam exercise

Exercises: Week Four

Well analysed and implemented
Good solutions with appropriate detail
Good structure for PHP/ HTML

Exercises: Week Six

Well analysed and implemented
Good solutions with appropriate detail
Good naming strategy for variables and functions

Exercises: Week Seven

Good analysis and implementation
Good solutions with appropriate detail
Elegant function definitions
Good

Exercises: Week Eight

Good analysis and implementation
Good solutions with appropriate detail
Elegant function definitions
All good here

Exercises: Week Nine

Good analysis and implementation
Good solutions with appropriate detail
Elegant function definitions

Exercises: Week Ten

Good analysis and implementation
Good solutions with appropriate detail
Elegant function definitions
Good objects /classes

General Comments

You need to resize screen shots to make them readable - many of these are so small as
to be pointless

Overall Mark:

75 %

2011/2012**

Lecturers Comments and Mark Sheet
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:

Kuid: K1006377

Exercises: Week Two

Well analysed and implemented
Good solutions with appropriate detail
Excellent structure for PHP/HTML

Exercises: Week Three

Well analysed and implemented
Good solutions, with appropriate detail but one or two minor problems
Good structure for PHP/ HTML
Should use "if else" statements as the conditions are separate - otherwise very good

Exercises: Week Four

One or two problem areas in the implementations
Good use of terminology and appropriate techniques
Good structure for PHP/ HTML
Your Newspaper solution doesn't need a CASE statement - the time tables could use a loop - a few issues

Exercises: Week Six

Well analysed and implemented
Excellent solutions covering depth and detail required
Excellent structure for PHP/HTML
Good solutions here

Exercises: Week Seven

Well analysed and implemented
Excellent solutions covering depth and detail required
Excellent structure for PHP/HTML
Good solutions here

Exercises: Week Eight

One or two problem areas in the implementations
Good solutions, with appropriate detail but one or two minor problems
Good structure for PHP/ HTML
Odd line in theResults function which doesn't look like valid PHP/SQL - missing a '='?. Is this working correctly?

Exercises: Week Nine

Well analysed and implemented
Excellent solutions covering depth and detail required
Excellent structure for PHP/HTML

Exercises: Week Ten

Well analysed and implemented
Excellent solutions covering depth and detail required
Excellent structure for PHP/HTML

Lecturers Comments and Mark Sheet
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:

Kuid: K1014023

Exercises: Week Two

Good analysis and implementation
Good solutions with appropriate detail
Good structure for PHP/ HTML

Exercises: Week Three

Ex 3 - could use if else / EX 4 you can do an assignment in a print but not recommended
Ex 6 - You don't change the overall grade to 39
Lots of good work here but a few issues

Exercises: Week Four

Missing response code for ex 4
... and ex 5?
Again - some good work here but two important PHP solutions missing

Exercises: Week Six

Missing response code for ex 5c
The code here is fine, but I'm looking for the response page again..

Exercises: Week Seven

Good solutions this week

Exercises: Week Eight

Good ex 7
Good solutions this week

Exercises: Week Nine

Good solutions this week
Much better these last three weeks
Good structure for PHP/ HTML

Exercises: Week Ten

Good students and person class/object definitions

General Comments

Your work in wks 7-10 was here and lifted your grade

Overall Mark:

60 %

Lecturers Comments and Mark Sheet
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:

Kuid: K1013536

Exercises: Week Two

Good analysis and implementation
Good solutions with appropriate detail
Good structure for PHP/ HTML

Exercises: Week Three

Pg4 - your POST array in activity 2 isn't defined correctly
Rather odd print statement as well - page 5
You don't have a proper response file/code
Some good code here but more required

Exercises: Week Four

Act4 - should use the array inside the option array
Act5 - Not correct
Reasonable mix of HTML and PHP
Lots of problems but some good code

Exercises: Week Six

Poor implementations with a bit more depth / detail required
Very flawed or missing implementations
Parts not working, but included as if they did work
Some forms and bits of PHP - but more more required

Exercises: Week Seven

Good work this week

Exercises: Week Eight

Lots of code missing here, but a few screen shots
Very flawed or missing implementations

Exercises: Week Nine

Some better code this week
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML

Exercises: Week Ten

Good students and person class/object definitions

General Comments

Overall Mark:

47 %

Students Name:

Kuid: K1036607

Exercises: Week Two

Good analysis and implementation
Good solutions with appropriate detail
Good structure for PHP/ HTML

Exercises: Week Three

Good analysis and implementation
Good solutions with appropriate detail
Good structure for PHP/ HTML
Your if statement could be more elegant - but lots of good work in here

Exercises: Week Four

Well analysed and implemented
Excellent solutions covering depth and detail required
Excellent structure for PHP/HTML
Very good

Exercises: Week Six

Well analysed and implemented
Excellent solutions covering depth and detail required
Excellent structure for PHP/HTML

Exercises: Week Seven

Very good - all good this week

Exercises: Week Eight

Well analysed and implemented
Excellent solutions covering depth and detail required
Excellent structure for PHP/HTML
Not much to add here - appropriate code, well displayed

Exercises: Week Nine

Well analysed and implemented
Excellent solutions covering depth and detail required
Excellent structure for PHP/HTML

Exercises: Week Ten

Good students and person class/object definitions

General Comments

Almost all the code included here is very good indeed

Overall Mark:

80 %

**Business Undergraduate Modular Scheme
2011/2012**

Lecturers Comments and Mark Sheet
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:

Kuid: K1008272

Exercises: Week Two

Good analysis and implementation
Good solutions with appropriate detail
Good structure for PHP/ HTML
Don't include screen shots that can't be read!

Exercises: Week Three

Good analysis and implementation
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML
You've included a cancel button on the form, but I can't see the response code that deals with it - the other exercises are good

Exercises: Week Four

Ex 3 - you do't need to use a new variable - just use \$1+1 inside
Use a loop rather than an array to get numbers 1-12!
Reasonable mix of HTML and PHP
A few areas that could be improved, but good efforts here

Exercises: Week Six

mysql_fetch_array returns an associative array - use te names for the array cells!
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML

Exercises: Week Seven

Good here - but more of the code could be abstracted out into the library files

Exercises: Week Eight

Good analysis and implementation
Good solutions with appropriate detail
Good structure for PHP/ HTML
Good exercises here

Exercises: Week Nine

Very good here - the exercise solutions are very good

Exercises: Week Ten

Good students and person class/object definitions

General Comments

Overall Mark:

67 %

**Business Undergraduate Modular Scheme
2011/2012**

Lecturers Comments and Mark Sheet
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:

Kuid: K1028514

Exercises: Week Two

Good analysis and implementation
Good solutions with appropriate detail
Good structure for PHP/ HTML

Exercises: Week Three

Good analysis and implementation
Uses terminology and techniques appropriately and in a valid style
Good naming strategy for variables and functions
You could use if else for more efficient code. A couple of the harder later exercises missing

Exercises: Week Four

Ex 4 should use the array to populate the drop down box
You've got a loop which doesn't do anything
Missing parts
Some good code here - but last part is missing

Exercises: Week Six

Good analysis and implementation
Good solutions, with appropriate detail but one or two minor problems
Parts not working- its your quotes at the end of the print statement
You have connectivity issues + a few syntax errors

Exercises: Week Seven

All good this week

Exercises: Week Eight

Good analysis and implementation
Some evidence of the appropriate techniques
Missing parts
A few errors - it's a shame that you couldn't get the database connectivity material working

Exercises: Week Nine

Good analysis and implementation
Good solutions with appropriate detail
Good structure for PHP/ HTML
Looks good this week

Exercises: Week Ten

Missing an exercise at the end - but some good work here
Got the Person bit but more required on the subclass

General Comments

Overall Mark:

56 %

2011/2012**

Lecturers Comments and Mark Sheet
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:

Kuid: K0931719

Exercises: Week Two

Good analysis and implementation
Good solutions with appropriate detail
Good structure for PHP/ HTML
Rather odd explanation/structure at the end

Exercises: Week Three

Well analysed and implemented
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML
You could have used else statements for slightly more elegant solutions, but in fact - very good

Exercises: Week Four

Good analysis and implementation
Good solutions, with appropriate detail but one or two minor problems
Nice use of two arrays in the module ex. Newspaper one could be better structured
Rather odd layout - put the screenshots next to the code!

Exercises: Week Six

Good analysis and implementation
Good solutions with appropriate detail
Excellent structure for PHP/HTML

Exercises: Week Seven

Screenshots are in the wrong order!
Good solutions with appropriate detail
Elegant function definitions

Exercises: Week Eight

Screenshots are in the wrong order - difficult to see what you've done here
Good solutions with appropriate detail
Elegant function definitions

Exercises: Week Nine

Well analysed and implemented
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML

Exercises: Week Ten

Good person and student class / objects

General Comments

Overall Mark:

67 %

2011/2012**

Lecturers Comments and Mark Sheet
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:

Kuid: K1042924

Exercises: Week Two

Good analysis and implementation
Good solutions with appropriate detail
Good structure for PHP/ HTML
Screenshots very small!

Exercises: Week Three

Good analysis and implementation
Some flaws/mistakes in the implementations/solutions
Good structure for PHP/ HTML
Ex 1 - you seem to have some PHP lines at the top of the form - you don't need these here. Ex 2/3 could be structured better. Two forms in Ex5 is wrong - rest could be better

Exercises: Week Four

Good analysis and implementation
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML
Ex 5 - use a loop rather than an array!

Exercises: Week Six

One or two problem areas in the implementations
Many parts not working
Database problems
You are nearly there with what you've got - very close!

Exercises: Week Seven

Your final code should be much cleaner - more of the code should be in the library files, with less in the main file.
Reasonable function definitions

Exercises: Week Eight

Very good this week - solutions could be a little more elegant, but overall good
Good use of PHP and appropriate techniques
Elegant function definitions

Exercises: Week Nine

Very good here

Exercises: Week Ten

Good person and student class / objects

General Comments

Overall Mark:

67 %

**Business Undergraduate Modular Scheme
2011/2012**

Lecturers Comments and Mark Sheet
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:

Kuid: K1005924

Exercises: Week Two

Good analysis and implementation
Good solutions with appropriate detail
Good structure for PHP/ HTML

Exercises: Week Three

Good analysis and implementation
Good solutions, with appropriate detail but one or two minor problems
Good naming strategy for variables and functions
Ex2 - if structure not quite right - should use an else. You could use an OR in the exam / cswk exercise to make the code more elegant

Exercises: Week Four

Good analysis and implementation
Good solutions with appropriate detail
Good structures for PHP/ HTML ... but one or two improvements possible
Ex 4 - your solution could be more elegant with the use of an array - you wouldn't need the if structure

Exercises: Week Six

Good analysis and implementation
Good solutions with appropriate detail
Good structure for PHP/ HTML
Good attempt at final exercise - no screen shots of it working though..?

Exercises: Week Seven

All good this week - although you could simplify the final code by having one PHP block at the top and one at the bottom

Exercises: Week Eight

Good analysis and implementation
Good solutions with appropriate detail..but...
Good structure for PHP/ HTML
Did you get the final ones working? No screen shots for the final exercises?

Exercises: Week Nine

Good analysis and implementation
Good solutions with appropriate detail
Good structure for PHP/ HTML

Exercises: Week Ten

Good person and student class/objects

General Comments

A little more evidence required in two places - but lots of good work here

Overall Mark:

63 %

**Business Undergraduate Modular Scheme
2011/2012**

Lecturers Comments and Mark Sheet
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:

Kuid: k1010220

Exercises: Week Two

Good analysis and implementation
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML

Exercises: Week Three

You've got your cancel button but you need to adjust the response file ..
With the grade one you need to change the grade as well (if cswk or exam <15)
Good structure for PHP/ HTML

Exercises: Week Four

Newspaper one could be written more efficiently - use the newspaper title array
Lots of good work here though
Good naming strategy for variables and functions

Exercises: Week Six

Your initial attempts at this didn't work - but you got it working eventually
Uses terminology and techniques appropriately and in a valid style
Good structure for PHP/ HTML

Exercises: Week Seven

Most of this is correct - you've got one or two errors that have stopped it working
Good use of PHP and appropriate techniques

Exercises: Week Eight

Good analysis and implementation
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML

Exercises: Week Nine

Good analysis and implementation
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML
Got there eventually with this material

Exercises: Week Ten

Good person and student class
Good to see you didn't give up over the small error in the code

General Comments

Try not to leave everything to the end! Made life more difficult for yourself

Overall Mark:

66 %

**Business Undergraduate Modular Scheme
2011/2012**

Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:

Kuid: k0907891

Exercises: Week Two

Good analysis and implementation
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML

Exercises: Week Three

Some good solutions here
Missing the grade one
Good structure for PHP/ HTML

Exercises: Week Four

Newspaper one needs a loop inside the option statement to get the full drop down list
Missing timestable one
Others are good

Exercises: Week Six

Bits of this are here - in wk 8, but some parts missing

Exercises: Week Seven

Some of these have the tag week 6 on them, but infact all the solutions are here
Good use of PHP and appropriate techniques
Elegant function definitions

Exercises: Week Eight

Some of this is here, but bits missing and in a bit of a jumble
Some evidence of the appropriate techniques
Good naming strategy for variables and functions

Exercises: Week Nine

Most of this is here and working
Good solutions, with appropriate detail but one or two minor problems

Exercises: Week Ten

Got the person but not the student?
Good use of PHP and appropriate techniques

General Comments

Don't leave everything to the end! Bit of a jumble..

Overall Mark:

60 %

**Business Undergraduate Modular Scheme
2011/2012**

Exercises: Week Two

Good analysis and implementation
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML

Exercises: Week Three

Good analysis and implementation
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML
The only comment here is in your grade calculator - you need to set overall grade to be 39 if greater when cswk or exm <15 - otherwise good

Exercises: Week Four

ex 3 - you've got a <td> instead of a </td> which is why it looks wonky!
ex 4 - either pass in the name of the newspaper, or use an array to reduce code needed
Good structure for PHP/ HTML

Exercises: Week Six

You worked hard to get these working and it paid off in the end
Good solutions with appropriate detail
Good structure for PHP/ HTML

Exercises: Week Seven

All good for this week
Excellent use of terminology and appropriate techniques where required

Exercises: Week Eight

Good analysis and implementation
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML

Exercises: Week Nine

Nice login / logout images - woo hoo
Excellent use of terminology and appropriate techniques where required
Elegant function definitions

Exercises: Week Ten

Again - its good to see that you got there in the end.
Very nice

General Comments

Lots of very good work here

Overall Mark:

80 %

**Business Undergraduate Modular Scheme
2011/2012**

Lecturers Comments and Mark Sheet
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:

Kuid: K0903044

Exercises: Week Two

Good analysis and implementation
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML

Exercises: Week Three

Good - but make sure you know how to capture a cancel button (not shown)
Uses terminology and techniques appropriately and in a valid style
Good naming strategy for variables and functions

Exercises: Week Four

Good solutions here, but the newspaper one could be more efficient
Use the newspaper array on the response page and a simple print
Good structure for PHP/ HTML

Exercises: Week Six

Well analysed and implemented
Good solutions with appropriate detail
Excellent structure for PHP/HTML

Exercises: Week Seven

All good this week

Exercises: Week Eight

Good analysis and implementation
Good solutions with appropriate detail
Good structure for PHP/ HTML

Exercises: Week Nine

Good analysis and implementation
Good solutions with appropriate detail
Good structure for PHP/ HTML
All good - again!

Exercises: Week Ten

Good person class - object
Your problem in the student object is on line 11 - mis named variable
(if you'd uploaded them a bit earlier you wouldve got some help!)

General Comments

Lots of good work here - although you would have been better off not leaving lots to the end!

Overall Mark:

67 %

2011/2012**

Lecturers Comments and Mark Sheet
Scheduled Assignment

BB2006 Web Scripting for Applications

Students Name:

Kuid: K1001074

Exercises: Week Two

Good analysis and implementation
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML

Exercises: Week Three

Pg 11 has some interesting errors in it - look for type = "yext" which I like!
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML
Overall good!

Exercises: Week Four

Code on page 19 could be done more efficiently put the array at the top and simply use a print array statement
Good structure for PHP/ HTML
Most of this is very good

Exercises: Week Six

Good analysis and implementation
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML

Exercises: Week Seven

Good analysis and implementation
Good use of PHP and appropriate techniques
Elegant function definitions

Exercises: Week Eight

Good analysis and implementation
Good solutions with appropriate detail
Good structure for PHP/ HTML
All good this week

Exercises: Week Nine

Well analysed and implemented
Excellent use of terminology and appropriate techniques where required
Elegant function definitions

Exercises: Week Ten

Good object and class definitions

General Comments

Thanks for trying the (optional) lab 11 material on MVC - looks like it worked! Lots of very good work here - well done!

Overall Mark:

85 %

BB2006 Web Scripting for Applications

Students Name:

Kuid: K1017934

Exercises: Week Two

Good analysis and implementation
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML

Exercises: Week Three

Good analysis and implementation
Good solutions with appropriate detail
Good naming strategy for variables and functions
Use an if else to make this more efficient - slightly harder final ex not here

Exercises: Week Four

You've got a problem in the newspaper one 'cause all the passed values are 0
Good solutions, with appropriate detail but one or two minor problems
Good structure for PHP/ HTML

Exercises: Week Six

Very close here - one or two minor problems (missing ; in ex 4 I think)
Good use of PHP and appropriate techniques
Good naming strategy for variables and functions

Exercises: Week Seven

All good this week
Good use of PHP and appropriate techniques

Exercises: Week Eight

Some bits missing here ...despite this
Good use of PHP and appropriate techniques
Elegant function definitions

Exercises: Week Nine

All good this week
Good use of PHP and appropriate techniques

Exercises: Week Ten

Good person and student class/object defintions

BB2006 Web Scripting for Applications

Students Name:

Kuid: K1035594

Exercises: Week Two

Good analysis and implementation
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML

Exercises: Week Three

One or two problem areas in the implementations
Some evidence of the appropriate techniques
Some good work in here - but a few design choices could be better
Your commission calculator should be simpler! Also - your marks exercise should calculate in the if statements and print at the bottom - much more elegant

Exercises: Week Four

Good analysis and implementation
Good use of PHP and appropriate techniques
Timetable and Newspaper are both good
Good this week

Exercises: Week Six

Good analysis and implementation
Good solutions with appropriate detail
Good database connectivity examples and exercises

Exercises: Week Seven

All good this week
Good use of PHP and appropriate techniques
Elegant function definitions

Exercises: Week Eight

All good this week
Good use of PHP and appropriate techniques
Elegant function definitions
Good to see you got the selection working eventually

Exercises: Week Nine

All good this week
Good use of PHP and appropriate techniques
Elegant function definitions

Exercises: Week Ten

Good person and student class/object definitions

General Comments

A bit wobbly at the start, but much better weeks 6-10

BB2006 Web Scripting for Applications

Students Name:

Kuid: K1001483

Exercises: Week Two

Good analysis and implementation
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML

Exercises: Week Three

Good analysis and implementation
One or two issues - use an if else to simplify code and your commision calc isnt correct
Some good work here
Missing the 'harder' bit of the last one!

Exercises: Week Four

Use the newspaper array in the reponse page - it will simplify the code a lot (pg 21)
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML
Missing the last ex

Exercises: Week Six

Reasonably well implemented
Some evidence of the appropriate techniques
Good structure for PHP/ HTML
Well done on persisting to get the insert code working

Exercises: Week Seven

One or two problem areas in the implementations
Good solutions, with appropriate detail but one or two minor problems
Elegant function definitions
(Some of this is tagged wk 6)

Exercises: Week Eight

One or two problem areas in the implementations
Good solutions, with appropriate detail but one or two minor problems
Elegant function definitions

Exercises: Week Nine

Good analysis and implementation
Good solutions with appropriate detail
Good naming strategy for variables and functions
Good this week

Exercises: Week Ten

Gor person - student missing?
Good use of PHP and appropriate techniques

Students Name:

Kuid: k1032168

Exercises: Week Two

Good analysis and implementation
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML

Exercises: Week Three

Use an if else statement to improve the code
Final extension to grade missing
Your conditions in the if statements are not valid PHP..
Otherwise .. Some good code here

Exercises: Week Four

Use a loop to print the module out
Newspaper code has got issues

Exercises: Week Six

Some good code
More needed / some missing

(Some of these have been labelled lab 4)

Exercises: Week Seven

Most of this is here

Exercises: Week Eight

Exercises: Week Nine

Exercises: Week Ten

General Comments

A bare pass - there is some work in the earlier parts, but lots missing or not
valid/correct

BB2006 Web Scripting for Applications

Students Name:

Kuid: K0920513

Exercises: Week Two

Good analysis and implementation
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML

Exercises: Week Three

Good analysis and implementation
Good use of PHP and appropriate techniques
Missing the grade exercise

Exercises: Week Four

Good analysis and implementation
Good use of PHP and appropriate techniques
Missing the timestable exercise

Exercises: Week Six

Good analysis and implementation
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML

Exercises: Week Seven

All good this week

Exercises: Week Eight

Well analysed and implemented
Good use of PHP and appropriate techniques
Excellent structure for PHP/HTML

Exercises: Week Nine

Well analysed and implemented
Good use of PHP and appropriate techniques
Excellent structure for PHP/HTML

Exercises: Week Ten

Missing for this week

General Comments

Almost all the code here is very good with few errors - more or two exercises missing

BB2006 Web Scripting for Applications

Students Name:

Kuid: K1010272

Exercises: Week Two

Good analysis and implementation
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML

Exercises: Week Three

Ex 3 - need to change the response page to catch the cancel button
Ex 5 - needs a bit of work to calc the grade
Some reasonable code, but more required

Exercises: Week Four

Ex4 - use the array in the construction of the option list
Timestable one needs to go further

Exercises: Week Six

Response file needs more code - to insert the record
Bit more required

Exercises: Week Seven

All good this week

Exercises: Week Eight

Bit more required here
Some reasonable code, but more required

Exercises: Week Nine

Good here
Password login and response files all good

Exercises: Week Ten

Person and student class good

General Comments

Some missing exercise solutions / some good weeks

Overall Mark:

BB2006 Web Scripting for Applications

Students Name:

Kuid: K1025275

Exercises: Week Two

Good analysis and implementation
Good use of PHP and appropriate techniques
Good structure for PHP/ HTML

Exercises: Week Three

Good analysis and implementation
Good use of PHP and appropriate techniques
Good naming strategy for variables and functions
You could use an if else for more efficient code in one of the earlier ex + last part of last one missing

Exercises: Week Four

Well analysed and implemented
Good use of PHP and appropriate techniques
Excellent structure for PHP/HTML

Exercises: Week Six

Well analysed and implemented
Good use of PHP and appropriate techniques
Excellent structure for PHP/HTML

Exercises: Week Seven

Good analysis and implementation
Excellent solutions covering depth and detail required
Elegant function definitions

Exercises: Week Eight

Very good - missing final response page
Good use of PHP and appropriate techniques

Exercises: Week Nine

Login / password session material all good
Excellent use of terminology and appropriate techniques where required
Excellent structure for PHP/HTML

Exercises: Week Ten

Object and class material good - one small mistake in the code ..
